

8/30/67

Dear Harold:

The enclosed will explain itself. Please return when finished. Actually I am stunned by the parallel activities of Messers. McNeil and Allman. It seems as though they did everything as "togetherness" in those critical moments after 12:30pm. At any rate, I will be waiting anxiously to hear what you have to say in this regard.

I have written back to McNeil, but can't see much profit in his reply. Someone should talk to Terry Ford.

This is a busy week and I won't take up your time with anything else. Needless to say, the small differences between the statement of Allman and the testimony of Jackson still intrigues me.

Until later,
Love, S.
